Compilation of healthy meals

### Services

Services offered by Nutrapp

### Survey

Questions to know yourself better

Nutrapp Mobile App is the responsibility of a group from the European Project Semester based in Vilanova i la Geltrú to work on a brief supplied by the company Nutrapp. Throughout the duration of the European Project Semester, the team work on designing and programming an application that will enable Nutrapp to prescribe advice to their clients. The project focus on research, design and application programming.
